ARKANSAS HIGHER EDUCATION INSTITUTIONS: NAMES AND ABBREVIATIONS

PUBLIC FOUR-YEAR:

ASUJ	Arkansas State University - Jonesboro
ATU	Arkansas Tech University
HSU	Henderson State University
SAUM	Southern Arkansas University - Magnolia
UAF	University of Arkansas, Fayetteville
UALR	University of Arkansas at Little Rock
UAM	University of Arkansas at Monticello
UAMS	University of Arkansas for Medical Sciences
UAPB	University of Arkansas at Pine Bluff
UCA	University of Central Arkansas

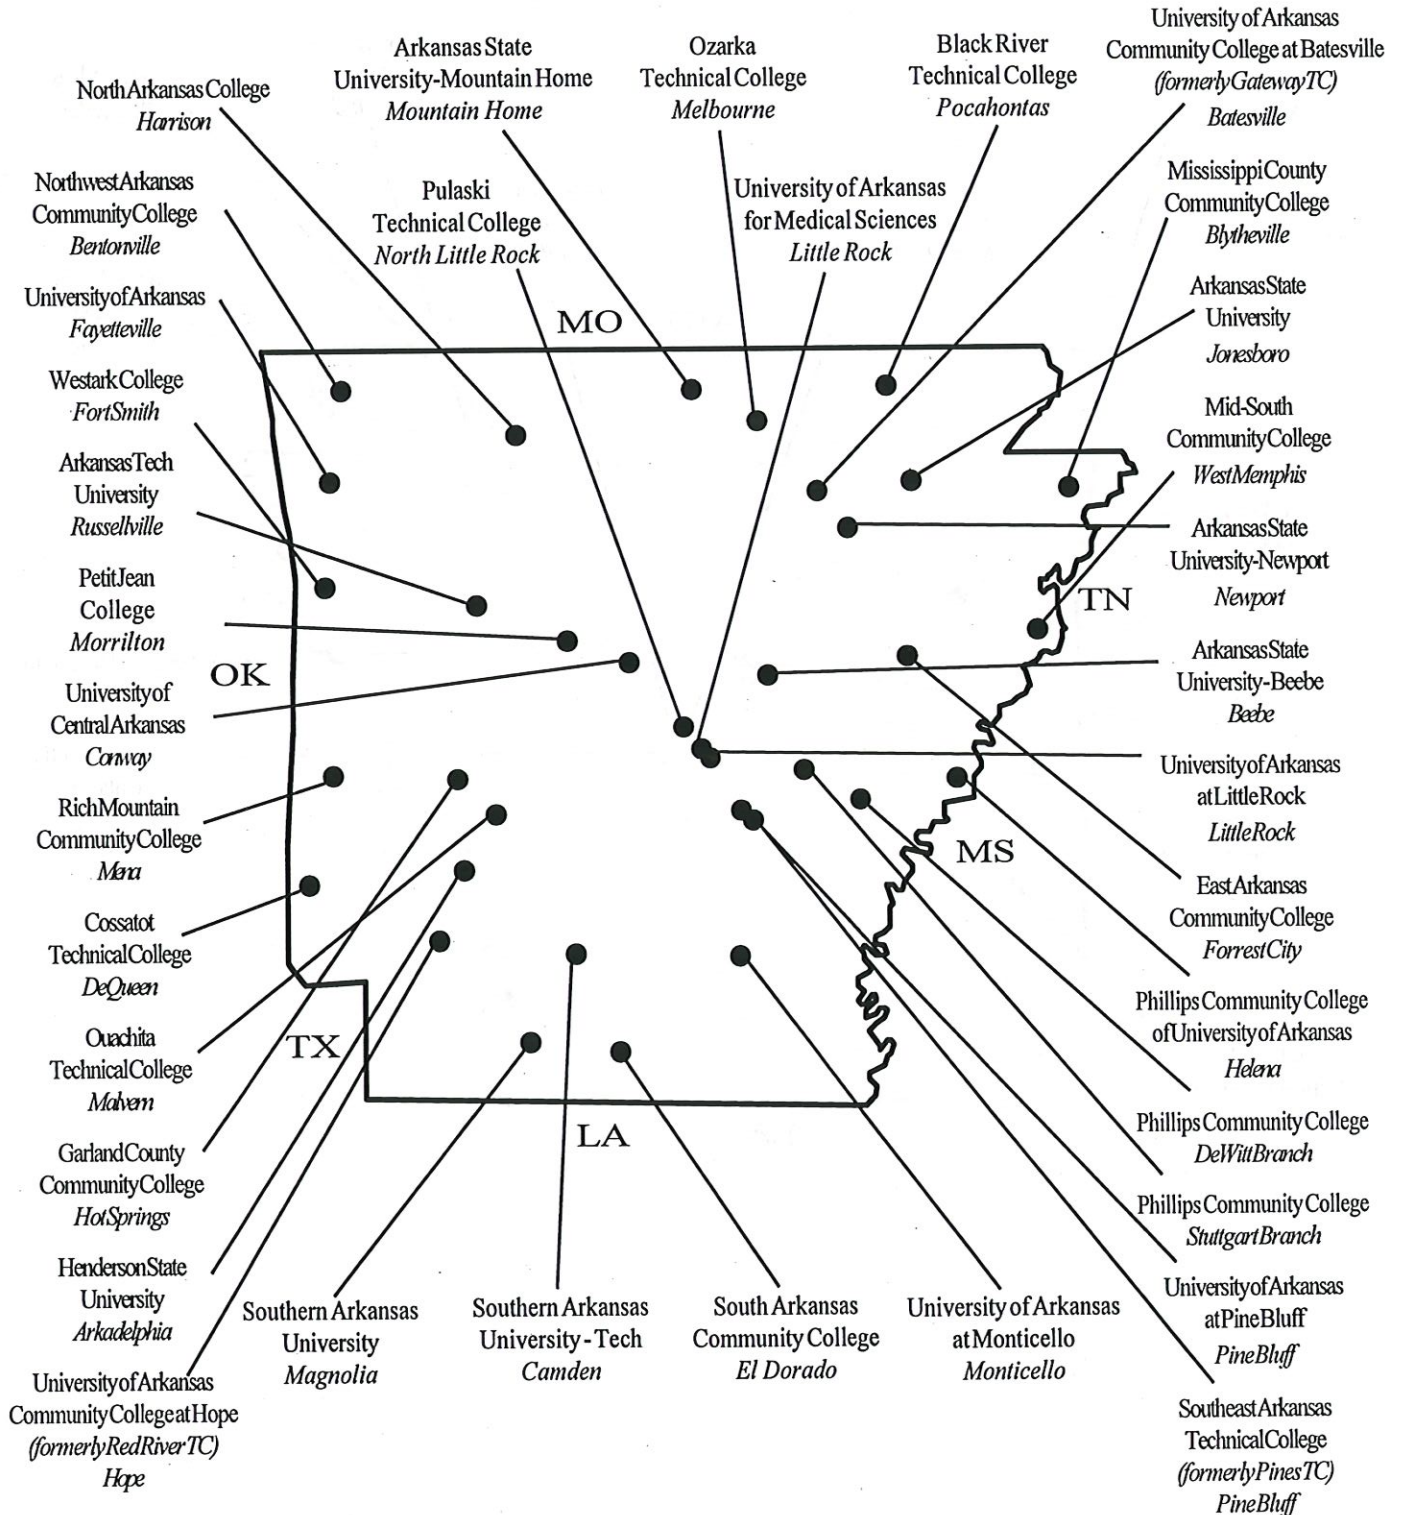

PUBLIC TWO-YEAR:

ASUB	Arkansas State University - Beebe
ASU-MH	Arkansas State University - Mountain Home
ASUN	Arkansas State University - Newport
BRTC	Black River Technical College
COTC	Cossatot Technical College
EACC	East Arkansas Community College
GCCC	Garland County Community College
MCCC	Mississippi County Community College
MSCC	Mid-South Community College
NAC	North Arkansas College
NWACC	Northwest Arkansas Community College
OUTC	Ouachita Technical College
OZTC	Ozarka Technical College
PCC/UA	Phillips Community College of the University of Arkansas
PJC	Petit Jean College
PUTC	Pulaski Technical College
RMCC	Rich Mountain Community College
SACC	South Arkansas Community College
SAUT	Southern Arkansas University - Technical Branch
SEATC	Southeast Arkansas Technical College
UACCB	University of Arkansas Community College at Batesville
UACCH	University of Arkansas Community College at Hope
WC	Westark College

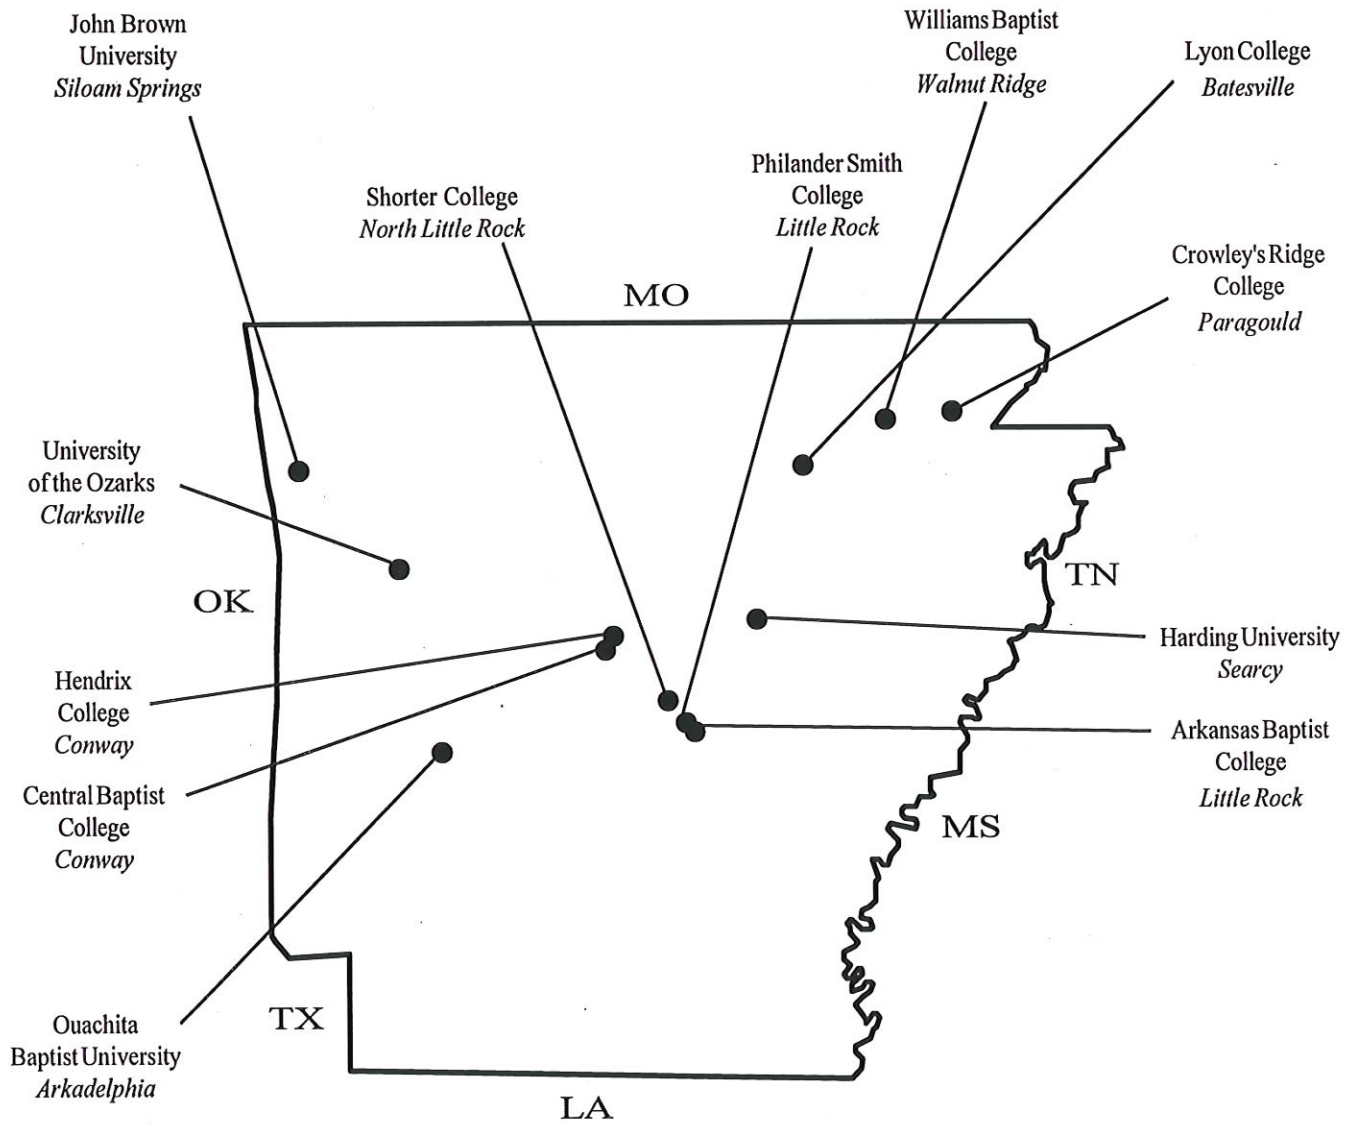

INDEPENDENT:

ABC	Arkansas Baptist College
CBC	Central Baptist College
CRC	Crowley's Ridge College
HC	Hendrix College
HU	Harding University
JBU	John Brown University
LC	Lyon College
OBU	Ouachita Baptist University
PSC	Philander Smith College
SC	Shorter College
UO	University of the Ozarks
WBC	Williams Baptist College

Arkansas Public Institutions of Higher Education

Arkansas Independent Institutions of Higher Education

EXECUTIVE SUMMARY

AND

ENROLLMENT TRENDS

OF ARKANSAS

HIGHER EDUCATION

EXECUTIVE SUMMARY

Fall 1997 on-campus enrollments in Arkansas higher education reached a record level, with 106,133 students reported by the 45 public and independent institutions. Total enrollment was nearly 3,000 students (2.9%) greater than a year earlier, 6.3% higher than in fall 1993, and 34.7% above the total reported a decade earlier. Public higher education enrolled 89.9% of the students, with the four-year sector accounting for 63.3% of the public headcount, another 24.2% associated the community colleges, and the balance (12.5%) with the technical colleges. Among the other highlights found in this year's report are:

- ❖ The University of Arkansas at Little Rock experienced the largest one-year gain in headcount among the public universities, followed by Arkansas State University-Jonesboro. Losses ranging between 3-5% were reported by the University of Arkansas at Pine Bluff and Arkansas Tech University. Since fall 1993, on-campus public university headcount has declined by 5.7%.
- ❖ Both segments of the two-year public colleges experienced enrollment growth since the prior reporting period. Community college enrollments continued rebounding, this year by +5.9%. The significant expansion of the technical colleges continued through 1997, as they nearly tripled the number of students they served in fall 1992. The highest one-year rates of increase were reported by Mid-South Community College, Pulaski Technical College, and Petit Jean College. Factors, such as relatively low tuition, an expanding number of academic programs, and the ability to offer transferable general studies coursework, have resulted in this on-going growth in two-year institutions.
- ❖ For the independent colleges and universities, the one-year change in headcount saw significantly higher enrollments at Central Baptist College and Williams Baptist College, while serious decreases were by reported Shorter College, John Brown University, and Arkansas Baptist College. In contrast to enrollments for fall 1993, longer-term double-digit declines have occurred at Arkansas Baptist College, Lyon College, Shorter College, and Crowley's Ridge College. These losses have been partially offset by gains made by Central Baptist College, and Ouachita Baptist College.
- ❖ Changes in public headcount enrollments between 1996 and 1997 followed similar trends as the changes in the number of full-time equivalent students. Four-year public schools generated 70.4% of the fall 1997 full-time equivalent students in the public sector.
- ❖ As an indication of graduates' perception of the value of enrolling in college rather than pursuing other activities such as working or entering the military, the college going rate measures the proportion of college students who enroll in post-secondary education immediately after finishing high school. The fall 1997 level--57.6%--is the highest ever recorded for the state, but still falls in the same general range of 55-57% reported for Arkansas since fall 1992.
- ❖ While reading remediation was nearly identical to the rate reported one year earlier, remedial percentages in mathematics and English for the fall 1997 entering cohort rose above the levels reported. Thirty-eight percent of the university freshmen registered for remedial math; by contrast, the level was nearly 77% for first-year students at the two-year colleges. More than one-third of the fall 1997 freshmen enrolled in developmental English, with the average for the universities of 24.6% being substantially lower than the two-year colleges' rate of 49.8%. With 29% of all students in public higher education enrolled in remedial reading, the proportion of two-year college students was twice that for university students.

Continued on next page

EXECUTIVE SUMMARY

- ❖ The average ACT composite score for entering freshmen for whom test scores are required at public institutions remained at 20.5 for the third consecutive fall term. This score falls between the 20.3 average for all high school students taking the ACT exam statewide and the national average of 21.0.
- ❖ In terms of race/ethnicity, both the four- and two-year public sectors reported similar proportions of black student enrollments: 15.6% for the universities; 16.2% for the colleges. Viewing the data in terms of total headcount, however, the universities showed a one-year net gain of 105 black students, while the two-year schools reported an increase of 724. In terms of first-time entering students, the universities' black enrollments were virtually unchanged between the fall 1995-97 semesters, but for this enrollment status, the two-year colleges reported 81 more first-time black students. At the graduate level, the proportion of black students continues fluctuating between 8 and 9%, while the percentage of black first-professional students hovered around 7%. At independent institutions, the share of total students reported as black dropped to 13.7%.
- ❖ The proportion of male-to-female students remained virtually the same within each sector when comparing fall 1995 data with those for fall 1997, as female students outnumbered males. Fifty-six out of every 100 public university students were female, but two-year colleges documented 62 females for every 38 males. Independent institutions maintained a 55:45 ratio.
- ❖ While 70.1% of public university undergraduates were in the traditional-aged brackets (under 25 years), 59.0% of students at the public two-year colleges were 24 years or younger. The colleges, however, attracted greater numbers of younger students, with nearly 36% of the headcount under the age of 20 years. The average ages for full-time undergraduate students attending public universities and colleges were 22.5 and 24.4 years respectively, while the mean for peers at independent colleges and universities was 21.9. The means for first-time, full-time students at public institutions were 19.2 years at the universities and 21.8 years for the colleges. The average age for first-time, full-time students at independent institutions was 19.3 years.
- ❖ Seventy-six percent of public university students attended full-time in 1997, a proportion identical to that for the prior year. By contrast, courseloads of students at two-year campuses resulted in 56% of the students carrying a part-time courseload. At the undergraduate level, 81% of the university students enrolled full-time, an even greater contrast to the two-year institutional pattern. The highest proportion of full-time undergraduates, however, was reported by the independent colleges, with 92%.
- ❖ The total number of first-time entering students at public universities in fall 1997 increased for the first time since fall 1993, and that cohort represented a larger proportion of total enrollment (15.8%). The percentage of students who were undergraduates dropped slightly to 84.8% of total university enrollments, while graduate education continued growing to a new high of 12.5% of the headcount. For two-year public colleges, by contrast, the proportion of total enrollments represented by first-time entering headcount has fluctuated slightly around 25% for the last three fall terms. For independent institutions, undergraduate students continue representing 98% of the total enrollment.

Continued on next page

EXECUTIVE SUMMARY

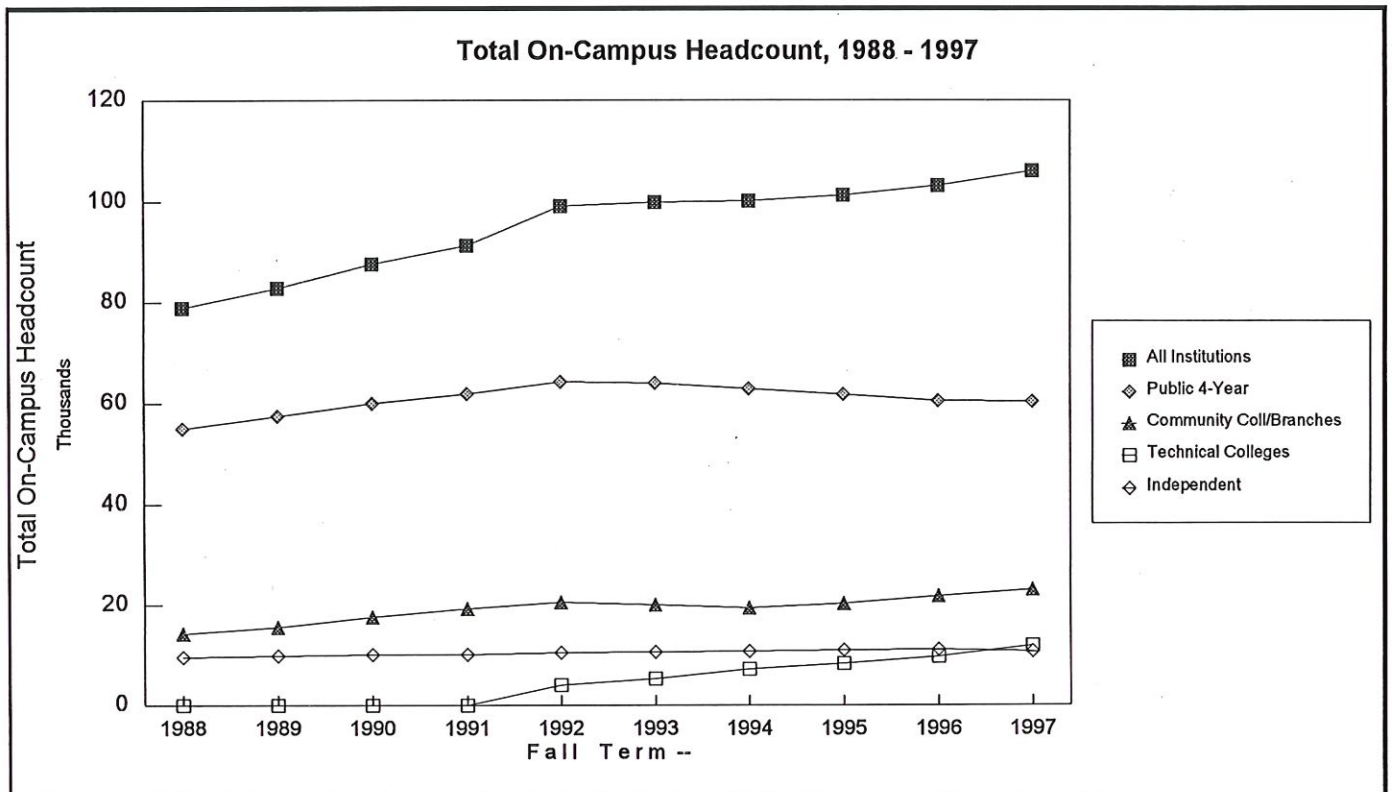

- ❖ Institutions draw students most heavily from their surrounding counties, within their respective districts, and/or from the more heavily populated areas of the state. The percentage of in-state undergraduates (87.3%) reflected a modest increase over the previous year, a trend that has been consistently upward over the five reporting terms. Out-of-state undergraduates dropped from a high of 11.7% in fall 1993 to the current level of 10.6%, while foreign students continue to comprise 2% of the headcount. As in past years, the border states of Texas, Missouri, Oklahoma, Louisiana, and Tennessee were the sources of the largest number of out-of-state students.
- ❖ The number of students reported as undergraduate entering transfers at Arkansas institutions in fall 1997 exceeded 5,700. The prevailing flow of students (29.6%) was from a two-year public college to a four-year public university, with the reverse pattern being the second most common (27.5%).
- ❖ Statewide first-year retention rates for first-time, full-time freshmen continued to rise when comparing the five cohorts that entered between fall 1992 through fall 1996, increasing from 62.8% to 67.4%. Analyses by demographic groupings revealed that women persisted at higher rates than men, whites higher than blacks, and younger students higher than older.

**Technical college totals are based on the 14 institutions that originally became part of higher education as a result of Act 1244 of 1991: ASUMH, ASUN, BRTC, COTC, MSCC, OBTC, OUTC, OZTC, PJC, PUTC, SEATC, TLTC, UACCB, and UACCH. Since then, ASUMH, MSCC, UACCB, and UACCH have become community colleges, while OBTC and TLTC merged with other institutions.

*ACT data not provided by institution.

**Students without an ACT score include: those tested by SAT ASSET, COMPASS; students for whom testing is not required by AHECB policy; and those for whom an invalid score was reported.

***Totals and average are based on students for whom ACT composite test scores are reported via SIS submissions.

****Average composite scores for Arkansas and U.S. provided by ACT and is based on all students taking the ACT exam.

* Cohorts = students who are first-time, full-time, award/degree-seeking, on- or off-campus and have the specified demographic characteristic.
 Enr. = Enrolled at either original institution or transfer institution. Cert. = Certificates of Proficiency + Technical Certificates
 % Cumulative Graduation = proportion of the cohort that completed a certificate or degree program at the original and transfer institutions for all years.
 % 1st Year Cohort Success and % Cumulative Cohort Success = most recent annual retention rates at the original and transfer institutions + the cumulative total of students awarded a certificate or degree at the original and transfer institutions/the number in the original cohort.

Notes:

Cohorts = students who are first-time, full-time, award/degree-seeking, on- or off-campus.
 Natives = students continuing to enroll in original institution.
 Transfers = students continuing to enroll in an institution other than original college/university.
 Enr. = Enrolled

Completion:
 Cert. = Certificates of Proficiency + Tech Certificate
 Assoc. = Associate Degree
 Adv. C. = Advanced Certificate
 Bacc. = Baccalaureate Degree

% Annual Retention = proportion of the cohort that continues to be enrolled either as a native or transfer student in a given year.
 % Cumulative Graduation = proportion of the cohort that completed a certificate or degree program at the original and transfer institutions for all years.
 % 1st Year Cohort Success and Cumulative Cohort Success = most recent annual retention rates at the original and transfer institutions + the cumulative total of students awarded a certificate or degree at the original and transfer institutions as a proportion of the number in the original cohort.

Data revised in May 1997 to be consistent with guidelines of Student Right to Know and IPEDS Graduation Rate Survey reporting.

Notes:

Cohorts = students who are first-time, full-time, award/degree-seeking, on- or off-campus.
 Natives = students continuing to enroll in original institution.
 Transfers = students continuing to enroll in an institution other than original college/university.
 Enr. = Enrolled

Completion:

Cert. = Certificates of Proficiency + Tech Certificate
 Assoc. = Associate Degree
 Adv. C. = Advanced Certificate
 Bacc. = Baccalaureate Degree

% Annual Retention = proportion of the cohort that continues to be enrolled either as a native or transfer student in a given year.
 % Cumulative Graduation = proportion of the cohort that completed a certificate or degree program at the original and transfer institutions for all years.
 % 1st Year Cohort Success and Cumulative Cohort Success = most recent annual retention rates at the original and transfer institutions + the cumulative total of students awarded a certificate or degree at the original and transfer institutions as a proportion of the number in the original cohort.

Data revised in May 1997 to be consistent with guidelines of Student Right to Know and IPEDS Graduation Rate Survey reporting.

Notes:

Cohorts = students who are first-time, full-time, award/degree-seeking, on- or off-campus.
 Natives = students continuing to enroll in original institution.
 Transfers = students continuing to enroll in an institution other than original college/university.
 Enr. = Enrolled

Completion:

Cert. = Certificates of Proficiency + Tech Certificate
 Assoc. = Associate Degree
 Adv. C. = Advanced Certificate
 Bacc. = Baccalaureate Degree

% Annual Retention = proportion of the cohort that continues to be enrolled either as a native or transfer student in a given year.
 % Cumulative Graduation = proportion of the cohort that completed a certificate or degree program at the original and transfer institutions for all years.
 % 1st Year Cohort Success and Cumulative Cohort Success = most recent annual retention rates at the original and transfer institutions + the cumulative total of students awarded a certificate or degree at the original and transfer institutions as a proportion of the number in the original cohort.

Data revised in May 1997 to be consistent with guidelines of Student Right to Know and IPEDS Graduation Rate Survey reporting.

Notes:

Cohorts = students who are first-time, full-time, award/degree-seeking, on- or off-campus.
 Natives = students continuing to enroll in original institution.
 Transfers = students continuing to enroll in an institution other than original college/university.
 Enr. = Enrolled

Completion:
 Cert. = Certificates of Proficiency + Tech Certificate
 Assoc. = Associate Degree
 Adv. C. = Advanced Certificate
 Bacc. = Baccalaureate Degree

% Annual Retention = proportion of the cohort that continues to be enrolled either as a native or transfer student in a given year.
 % Cumulative Graduation = proportion of the cohort that completed a certificate or degree program at the original and transfer institutions for all years.
 % 1st Year Cohort Success and Cumulative Cohort Success = most recent annual retention rates at the original and transfer institutions + the cumulative total of students awarded a certificate or degree at the original and transfer institutions as a proportion of the number in the original cohort.

Data revised in May 1997 to be consistent with guidelines of Student Right to Know and IPEDS Graduation Rate Survey reporting.

Note: (1) The freshmen athletic cohort is defined as participants on any intercollegiate athletic team during the listed academic year, including athletes who were red-shirted and those who practiced or travelled with the team, and who were enrolled as first-time, full-time, degree-seeking students.
 (2) Beginning with 1992-93, data are based on students who were reenrolled in or graduated from either their original or transfer institution.
